AMERICAN INSTITUTE

NEW YORK, 1865.

To the FLORENCE SEWING MACHINE CO. for the Best Family Sewing Machine,

Highest Premium! Gold Medal!

REASONS:

1st.—Its simplicity and great range of work.
2d.—The Reversible Feed Motion.
3d.—The perfect finish and substantial manner in which the Machine is made.
4th.—The rapidity of its working and the quality of the work done.
5th.—The self-adjusting Tension.

The Florence was awarded the first and highest premium at the State Fair of California, the only Fair on the Pacific coast at which any two double thread Sewing Machines were exhibited in competition in 1865.

The Florence received the only premium awarded, by the Mechanic's Institute of San Francisco, in 1864 and 1865, to any Sewing Machine, Sewing Machine Co.. or Agent. The claim of a competitor to a medal is without any foundation whatever.

Wherever the Florence has been brought in competition with other Sewing Machines, it has always been declared the best. It is the most simple, the most substantial, the most efficient, and its use is easily learned. Every Machine sold is guaranteed in the full sense of the word.

AFTER ALL.

After all!
In the sleep that comes to all,
Does it matter what befall
When we are beyond recall,
Sleeping soundly and profoundly?
All the woful weight of care
That our human spirits bear
In a great or lesser share,
After all, after all!

After all!
All the glory, all the gain,
So much chaff, so little grain,
All life's pleasure, all its pain,
Matching sweetness by its fleetness;
Only on the shining slope
Of God; upland blooms the hope
That we cherish as we grope,
After all, after all!

After all!
There'll be pebbles on the shore,
There'll be sunshine on the floor,
There'll be footsteps at the door
When our sadnass and our gladness
Are as were the babies twain
Covered by the birds in vain
Where the leaves would not remain
After all, after all!

OUR NEW YORK CORRESPONDENCE.

NEW YORK, MARCH 8, 1868.

So thoroughly aroused and feverishly excited has New York labored under during the week, over the startling intelligence from Washington, that the better class of our citizens have become painfully alarmed about the unhappy condition of the country, and the dangerous aspect which public affairs have taken. It seemed as if we were to be plunged into another internecine strife, more calamitous than the rebellion, in which every interest and even the country itself were to be sacrificed upon the bloody Moloch of partisan vengeance. The scenes transpiring in and about the city when the telegraph announced the passage through the Lower House of Congress, of the impeachment resolutions against the President, were indeed a mournful spectacle. Impromptu meetings were held, and men commenced organizing at once for armed resistence. Business for the time being was suspended, and it was with the utmost difficulty a financial panic, which once started, would have been contagious in every remote section of the country, was happily frustrated. The police, too, in their excessive zeal to preserve order, came near provoking riot and bloodshed by their officious intermeddings with excited knots of men, who were taking counsel of each other in public discussion. At one time it was reported that the City was placed under martial law; newsboys rushed to and fro, doing a lively busines in "extras," which only contained the most absurd reports, but all having a tendancy to add fresh fuel to the excitement. It would have taken but little urging of the party leaders to have assembled together an armed host, ready at an hour's notice to repair to Washington upon the slightest pretext. Happily since better counsels have prevailed. A great deal of speculation is indulged in by everybody. Revolutionary or violent measures of any kind are generally depreciated. Recruting offices however, are in full blast in different quarters of the city, the ostensible object of which is the formation of Johnson clubs, and the emigration of recruits to Maryland to respond to any call that is made upon them. About ten thousand names it is ascertained have already been enrolled. The better class of our citizens, however, agree that the Supreme Court is the only proper tribunal next to the ballot box, where the questions at issue can be legally decided.

Both Johnson and Stanton are as much amendable to the laws, as the poorest wood sawyer in the country, and it would indeed be a strange condition of affairs, if Congress itself could simply resolve itself above the Constitutional limit of power to set at defiance the expressed will of the people.

How to pay the national debt, place the credit of the government upon a safe and permanent foundation, and relieve in a measure the people from oppressive taxation, affords our financial writers at the present time a prolific subject for making editorial excursions into the realms of fancy. Of all the new ideas and exploded doctrines which have been advanced recently on the foggy theme, but one has been proposed, which, from its very practicability, bears upon its face the stamp of real, genuine merit, and which more than any other plan offered has attracted the attention of our statesmen and financiers. It is nothing more than for Congress to authorize a bond bearing interest of *one cent on* $100 a day, to be exempt from taxation and to run thirty years, and be a legal tender at par. Being exempt from taxation, it would be equal to a six per cent, real estate bond, be better than any European bond, and save *four per cent*, on the present mode of funding the debt. Had this plan been adopted in the first place, it would have saved the nation $380,000,000 which have now to be paid by the industrial classes to money brokers and bankers. Credit is subject to the great law of supply and demand, which causes fluctuation with it. If a high price is desired, a good article must be produced to be converted into the best credit. The best credit is the one universally known and the easiest convertible into any other thing. These bonds would effect that object with the greatest facility to the taxpayers, and largely benefit the producing interests generally.

We had supposed that the old passport system, so utterly repugnant to an American's idea of personal liberty, had been abolished at the close of the war. We find now, however, we were mistaken in this conclusion, and that it is to be more rigidly enforced than ever. The formal official regulations as amended, were issued this week by the State Department at Washington to the agents in this city, for granting the necessary documents to all citizens of the United States traveling in foreign countries, in which the plain letter of the law and the penalty attached to its violation are explicitly set forth. While the old tottering monarchies of Europe are fast doing away with this odious system of a bygone autocratic age, it seems rather a strange anomaly just at this time for republican America to give it renewed vitality. Hitherto the expense of procuring a passport was $5, but now, under the new regulations, the amount is increased to $10, arising from the revenue stamp of $5, required to give validility to the document. It affords a fine opportunity for bogus generals, the "Hon." Mrs. Montmorency Browns and Major Buzzins, of metropolitan society, who claim stunning titles to their names, to air themselves in full regalia before royalty in Europe. Armed and endorsed with the *E Pluribus Unum* in red wax on a huge piece of parchment, who would dare question their assumption to be considered of the superior aristocratic class of America. No one. And all this, too, for only $10 in greenbacks. Cheap distinction, isn't it?

While gold is booming, and the "bulls" rampant under the startling rumors from Washington, the gamblers outside of the Stock Exchange are having their new sensation as well as those of the Micawber politicians, the "gutter-snipes" and operators for a rise. The latest bulletin from the club houses informs us that the followers of King Faro are bewildered over the discovery of a "system," so called, recently introduced in this city by a sporting man named Pettibone by which the king himself can be impeached and rendered powerless for harm hereafter. The secret is only known to a few persons, and these have succeeded in winning several hundred thousand dollars in as many weeks—"breaking banks" and creating dismay and consternation among professional blacklegs. Already many of the poor dupes who frequent these "hells," tempted by his seeming success, the noise of which is spread abroad, are trying the new device. It is only the same *ignis fatuus* in another aspect, luring them to destruction. Most of the Broadway establishmenst and "up-town club-houses" have closed their games against the discoverors of the "new system," and under no pretence will allow them to enter their doors. Several leading houses in the trade are doing nothing. Among others may be mentioned that one in the region of Fifth avenue, known as Morrisey's old place. It saw its best days before an Ex-Hon. quit $130,000 winner at one night's setting, besides recovering $60,000 lost a few nights previous. A "bank" is sometimes owned by several "sports," who divide their interest in shares proportioned to the amonut of capital they put in. Every month they declare a dividend—after deducting running expenses. Sometimes the bank breaks, like other moneyed institutions, but defalcations are not very common. Rents in this line of business range from $5,000 to $10,000 per annum. A well-known gambler owns a house near Union place, on which he could realize the handsome profit of $125,000 over its cost a few years since. It is impossible to speak of gambling without calling Wall street to mind; and no treatise about faro banks could be considered exhaustive which omitted a description of its highways and byways. Wall street is a conglomerate of the oldest kind of fossils and the latest unclassified deposits—a mixture of money kings and "lame ducks," sharpers and gulls, regulars and outsiders; in a word, brokers, merchants, clerks, politicians, and what-nots.—There is no doubt the nubmber of outside operators was greater during the war than now, but certainly their name is still legion. Stories are indeed told of ladies who, during that critical period, pawned their diamonds and other valuables, and of clergymen who pledged their next quarter's salary, to raise a "margin," to say nothing of the nearly strapped individual who deposited his last stock, a spavined roadster with his broker: but if its secret chronicles were made public, Wall street could every current day exhibit more deeply desperate ventures in the pursuit of unrighteous mammon than all the gambling hells combined.

The trial of Rev. Stephen H. Tyng, jr., is finished. It has made a great noise. In point of fact, the church bells have done nothing but tyng, tyng, tyng a ling, ling for weeks, summoning the public not to church, but to the church's bout at mental fisticuffs with a too liberal member of the sacerdotal order. It may be all right to try an Episcopal preacher for going off at a tangent into a Methodist pulpit, but it seems to us that it smacks a good deal of religeous cant and hypocrisy, this attempt to degrade a man for trying to save other men's souls from perdition in a way less ostentatious than the cannons of his own church allowed. We remember the time when it was quite a common thing to sing Old Hundred under a persimmon tree out of the same hymn book with one's sweetheart and nothing was thought of it. Then there was the good old parson whose father "fit inter the revolution;" there was no scandal when he took a trifle of Jersey lightning, on a bitter, cold day, just to warm him up a little for his sermon. How he used to give it to us. In those days, too, the chap that could "blaze" a deer's tail at a hundred yards, with a rifle ball; ride twenty miles to church in a snow storm, and had the loudest pair of lungs, was generally made leader of the choir, and collector of the internal revenue. All this is done away with now—our churches are made to look like so many gorgeous temples, with satin decorations, gilded pulpits, operatic music, Italyan artists to relieve the indolent congregation from the effort of singing psalms of praise on high—and elaborately bedizzened clergymen, that a week kneed christian in seedy clothes would be frightened away from the sacred presence. In all propability he would be prompted by the glitter and dazzle of the surroundings, to go and steal something, if only to get even with his neighbors in trying to keep up a respectable appearance.

What a melancholly sight it is to witness the poor unemployed people—men, women and children, flocking in droves to the various station houses and prisons of the city daily to keep from starving. At these places they are furnished by the authorities with warm breakfasts from seven to eleven A. M., and dinner of bread and meat, from four to six P. M., gratuitously. They are not of the class called paupers, but most of them are hard working people, who find it impossible to obtain employment these hard times; only too willing to labor, if labor could only be had from some one who would pay them enough to keep body and soul together. It is rather an unusual thing to see so many gaunt, poverty stricken crowds, in utter destitution among Americans, and that, too in an American city, noted for its wealth and enterprise. A prison atmosphere would not give an honest mechanic much relish for his food, be he ever so hungry, at any other time. It has been shown, too, that the growth of indigence in this city during the past ten years, is six times greater than the increase of population.

The total strength of the National Guard of the State as officially reported, is 47,486, composed entirely of all arms of uniformed volunteer organizations.—A number of new regiments are forming, which will soon swell to nigh sixty thousand effective men.

The plans for the new post office on the City Hall Park have been forwarded to Congress for approval. White marble is to be used in the construction of the building, with mansard roof and capitolian dome in the French renaissance style of architecture.

The places of amusement have been but poorly attended during the week, owing to the exciting rumors from Washington. The hotels and bar rooms and political headquarters seem to draw the largest crowds, who throng them nightly to discuss the situation and take counsel as to the best course to be pursued in the event matters assume a still more threatening appearance.

The great Charity Ball at the Academy of Music, Monday night last, always considered heretofore the most aristocratic ball of the season, and o fall others the best attended, was comparatively a failure in point of attendance. The toilets of the ladies were superb, and the display of diamonds magnificent. Many of the *creme de la creme* of Gotham's finest damghters were present but not more than a third of the usual number of tickets were sold.

Miss Mary Gannon, a popular and leading actress at Wallack's, and a great favorite among theatre-goers, died on Saturday last, after a few weeks illness, aged 38 years.

Four pawnbrokers of this City, claim to be selling Mrs. Lincoln's wardrobe.

A live stock insurance company is being organized in this city. There is now but one in the country and that has been successful.

The Legislative committee are still investigating the contested seat case of Claussen vs. Van Brunt.

Sunday, the 23d inst., was the coldest day this city experienced for many years. The mercury dropped all the way from ten to twenty degrees below zero. The churches were deserted and the streets also.

The latest novelty in N. Y. journalism, is to publish a list of "Funerals To-Day." They are arranged alphabetically, and the number of the street is given. "Marriages To-Morrow," will be the next announcement.

Through some negligence on the part of the garrison on Governor's Island, the National Flag was hoisted on Washington's birth-day, with the *Union down* a signal of distress, and allowed to remain so the entire day.

If strict life in New York is ever gay, it is on a clear, bright, rosy afternoon. The leading Avenues and Broadway, look like outstretched pageants. Short dresses are all the rage. One of the pet ticoats is a claret-colored velvet, the dress and jacket trimmed with rouleux of the same colored satin, and worn over a blue silk petticoat; a mauve velveteen with satin spots upon it, the dress and jacket worn over a mauve silk petticoat, and some handsome black velveteens trimmed with jet trimming. Pocket handkerchiefs have colored figures upon them, as a vignette, in the corner. Brown gloves are still fashionable, ranging from light tan to *beuvre* and cream color for evening and full dress.

In fancy jewelry there are at present many curious devices. Insects seem to be very much the fashion.

The north-east snow storm, which set in early in the week, has revived the sleighing festivals out of town. Bloomingdale and the Central Park are the chief points of attraction.

The new Tammany Hall on Fourteenth street has been designed as the place of meeting for the next National Democratic Convention. When completed, it will be one of the largest and finest structures in the State. It is understood that delegates from every State in the Union will be present at the inaugural ceremonies.

The anticipated selection of Judge Barnard to the position of United States Senator, will leave a vacancy in the Supreme Court of this city. Judge Russel will be nominated as his successor.

Fifty thousand dollars of additional rewards have been offered for the detection of the incendiaries who are bent on burning most of our public buildings in this city, and many of our private ones in the more fashionable quarters. The incendiaries seem to be composed of a gang of scoundrels who have no other motive in view, apparrently, than to produce riot and bloodshed, and inciting our people to civil strife.

The South Carolina Convention has done nothing definite. A strike among negroes on the wharves threatened serious results, but General Burns the new mayor, appeared with a file of soldiers and dispersed the rioters, arrested the ringleaders.

Several mysterious disappearances of prominent persons have occurred in London recently. The latest is that of the Rev. B. Speke, a brother of the African explorer of that name. He is supposed to have been robbed, then murdered, and his body secreted.

THE Sweetwater mines are about 325 miles northwest from Denver; 200 northwest from Cheyenne; 250 east of Salt Lake City. 400 east of Fort Hall; 700 southeast of Virginia, Montana; and about 650 from Boise city.

THE Dalles *Mountaineer* notes the arrival of forty tons of machinery for the new woolen mill building at that place.

BAD SPECULATION IN BLACK CATS.—The statement that an enterprising Yankee has bought an island in the Ohio river, and stocked the same with black cats, intending to go into the fur trade, has called forth the following account of a similar experiment, which was made many years ago by a gentleman who resided in Maryland. The idea struck him that, as the fur trade was lucrative, it would be much better to raise animals nearer home than the regions North, and accordingly he purchased an island in Chesepeake Bay, stocking it with the blackest of black cats. He paid extravagant prices for the felines, and all the boys in the adjacent country went extensively into the buisiness of entrapping unsuspecting Tommies and Tabies, which were immediately disposed of, and sent to the aforesaid island. The gentlemen found that the cats were prolific, and was soon compelled to employ two men to live on the island, and fish with a seine, in order to supply them with food. At first the fishermen had quite an easy time, and readily supplied fish in abundance for their charges; but the numbers increased until whole legions of black cats trooped over their island home, and the men found it impossible to furnish the requisite amount of nourishment. At last it was determined that one of the men should take the boat, and, report the alarming state of affairs. During the abscence of the messenger the cats became exceedingly bold, and the remaining party fearing for his life, locked himself up in his cabin, and prepared for a siege. The enemy, emboldened by this display of fear, and urged on by hunger, surrounded the house, climbed up the sides, staring in at the affrighted man through the windows and apertures, keeping up the while the most hideous caterwauling. He carefully stopped up every crevice save the chimney, but seeing and hearing ominous fall of soot, which disclosed a determination on the part of the besieging force to affect a surprise, he closed that opening also, and Micwaber-like, waited for "something to turn up." For two days and nights he was kept in this singular prison, with the dreaded howls of the famished cats ever resounding in his ears, and with savage eyes glancing at him continually. At length a party arrived with guns, and succeeded in succoring the man from his truly awful position; but so numerous were the cats, so fierce their aspect and threatening their demeanor, that both the rescuer and the rescued were only too glad to leave the pandemonium of jet-black cats, gaunt and ferocious as they were from starvation The animals all perished, and thus ended one of the most extensive cat rearing ventures ever recorded.

DIED YESTERDAY.—Every day is written this little sentence "died yesterday." Every day a flower is plucked from the sunny home; a breach is made in some family circle; a jewel stolen from some treasure of love. Every day from the sunny fields of life, some harvesters disappear—yes, every hour some sentinel falls from his post, and is thrown from the ramparts of time into the surging waters of eternity. Even as we write, the funeral of one who "died yesterday" winds like a winter shadow along the staeet. "Died yesterday!" Who died? Perhaps it was a gentle babe, sinless as an angel, pure as a zephyr's hymn—one whose laugh was as the gust of summer hills loitering in the bower of roses—whose life was a perpetual litany, a May time crowned with the passion of flowers which never fade. Or, mayhap, it was youth, hopeful and generous, whose path was filled with flowers with not a serpent lurking underneath, one whose soul panted for communion which the great and good, and reached for h with earnest struggle for the garden in the distance. But the heart is still now—he "died yesterday."

"Died yesterday." A young girl, pure as the orange flowers that clasped her forehead was stricken down as she stood at the altar, and from the dim aisles of the temple, she was borne to the "garden of slumber." A tall, browned man, girt with the halo of victory, and that at the day's close, under his own vine and fig tree, fell to dust, even as the anthem trembled on his lips; and he, too, was laid where the rude forefathers of the hamlet sleep! An aged patriarch, bowed with years and care, even as he looked out on the distant hills for the coming of the angel host, sank into dreamless slumber; and on his door-step was written "died yesterday." "Died yesterday!" Daily, men, woman and children are passing away; and hourly in some graveyard the soil is flung upon the dead. As often in the morn, we find some flower that blushed so sweetly in the sunset, has withered up forever; so daily as we rise from our bivouac, to stand against our posts, we miss some brother soldier, whose cheery eye in the sieges and struggles of the past, had been like dew from heaven upon our hearts. Each day some pearl drops from the jewel thread of friendship—some lyre to which we were wont to listen has been hushed forever. But wise is he who mourns not the pearl and jewel lost.

The *fete* given in Paris by the United States Minister, Gen. Dix, in celebration of Washington's birthday, was a very brilliant affair, A great crowd of Americans and foreign guests attended. Many French and other European notabilities were present. No speeches were made.

A wretch who outraged a little girl in Bellville, Illinois, was on his way to the State Prison for seven years and a half in less than twenty-four hours after the the commission of the crime.

AT a dinner given by the directors of a State street bank in Boston, recently, there were present among others, thirty gentlemen worth $1,000,000 each.

Death may remove from us the great and good, but the force of their actions still remain. The bow is broken, but the arrow is sped, and will do its office.

JUNIATA CLAIM.—This claim, owned by Kidder & Co., cleaned up a few days since, but we have been unable to obtain the amount of the yield, we were, however, reliably assured that the return exceeded the expectations of the owners some four hundred dollars. They have been working three men, and using two hundred and twenty-five inches of water and two pipes. They have been engaged for the past few days putting in new boxes and getting things in readiness for another run. Yesterday they commenced washing again, and will hereafter work night and day.

NEW SAW MILL.—Messrs. George and Allen Towle are building a large saw mill at Mallows' Station, about six miles above this place, on the Donner Lake road, which will be ready for business in a few weeks. The building of the Central Pacific Railroad has made the lumber busines a very lucrative pursuit in this section; in fact, along the entire line of the railroad new saw mills are constantly being built, and the enterprise has invariably proved successful.

GOOD YIELD.—The old Boston claim after a run of sixteen days cleaned up on Thursday one hundred and forty-four and one half ounces of gold. The company use two hundred and seventy-five inches of water and employ four men. That is what might be called a splendid yield.

THE Dutch Flat Company cleaned up on Wednesday last after a run of sixteen days, about three thousand dollars.—They did not clean up the boxes in the tunnel, and it is estimated that nearly one thousand dollars are in them. They have arranged their boxes and pipes and commenced washing again.

THE Chinaman are the only parties mining in and around Green Valley, on the North Fork of the American river. We learn that they are taking out a considerable, quantity of gold. The miners along the North Fork are making preparations for a vigorous season's work.

GOOD FOR HUMBUG.—On Friday Messrs. Snyder and Deverly, took from a single crevice in their claim in Humbug canyon forty ounces of gold. The miners are working very briskly in this section, and are meeting with good successes.

CHANGED HANDS.—The Union Drug Store in this place has passed into the hands of J. T. Mathewson, Esq., who announces through our columns to day his intentions of keeping a first class es tablishment. Go around and examine his stock.

$10 REWARD.—The above reward will be paid for the recovery of a large New Foundland dog, stolen from the yard, around our office, on Monday last, and for the arrest and conviction of the thieves.

MINSTRELS.—A band of minstrels visited this place on Monday night of this week. An assemblage of nearly twenty persons were present. Who says Dutch Flat is played out?

STILL BETTER.—The last lot of cement run through the Baker Bro's. arastas yielded at the rate of about thirteen dollars per car load, or about twenty six dollars per ton.

THE Queen City are engaged in relaying their pipes and sluices preparatory to commencing to wash; they expect to have every thing in readiness by the middle of the coming week.

MITE SOCIETY.—The Mite Society met at Pioneer Hall on Tuesday evening last, and those who attended tripped the "light fantastic," till midnight when the party adjourned.

THE new blacksmith shop belonging to G. M. Halsey Esq., is being rapidly built, and when completed will be quite an improvement to this street.

WATER was turned into the Yuba Ditch this week for the first during the present season.

THE Soical Circle met last evening, and we understand, was well attended.

WE notice that the question of redeming the United States bonds with greenbacks, still continues to be the great hobby of the majority of the partisan press, of this country; one claiming that the redemption of the bonds with greenbacks is literal repudiation, the other claiming that if it is not done the Nation will become bankrupt and that "instead of greenbacks for their bonds they will get nothing"—The Humbold *Register* the organ of the Democracy of the State of Nevada says:

On this question the West and South, not of the Democratic party alone, but of all parties, will come solid for repudiation in less than two years if Radical rule and the bondholding policy is to be fastened on the country. Bondholders are worse than mad to believe they can wring from the people more than was originally nominated in the bond—more than the contract with the Government originally called for. They mistake the temper er of the people and know not what they do, for as sure as there is a God in Israel, their iniquitous scheme will be defeated. Both parties in every Western State, where an expression of opinion has been heard, have denounced and condemned in vigorous language this rotten scheme of public plunder. Not satisfied with drawing twelve and fifteen per cent in gold on their contract while it continues, they now demand that the Government pay them more than double, in many cases, the sum invested. Let them beware how they trifle with the rights of the people by themselves doing violence to the contract, for when once it is broken by them it will find but little favor in the sight of the other party. The people have nothing to lose in this fight and the bondholders have everything. The people ask for a strict construction of the contract and payment in accordance with its terms. If bondholders are not content to abide this condition, then let them take nothing. Democratic as well as Republican bondholders must share the same fate.

Now if any thing more was demanded by the bondholders than was specifically agreed upon between the contractors and the Government, then there would be some sense in the above, but we are unable to see wherein the bondholders have asked for more than what legitamately belongs to them. As far as repudiation is concerned not one in a hundred has ever allowed himself to contemplate such a thing.

BEAUTY OR BRAINS.—If it were optional with all women to be intelligent or beautiful, but forbidden to them to be both, which of two gifts, Beauty or Brains, would the majority of the sex prefer? This a delicate question, but if put to the vote we are inclined to think that beauty would carry the day. Men bow down to feminine loveliness, but as a rule they are apt to fight shy of feminine wisdom. Some of them even seem to regard it with jealousy as an infringement on their prerogative. It is true that several tough old philosophers have inveighed against the influence of beauty, stigmatizing it as a "short-lived tyranny," a "silent fraud," a "mere accident of nature," and the like; but the probability is, that these caustic fellows had made bids for it in vain, and that the acidity of temper they displayed was ascribable to "sour grapes."

We clip the above from an exchange, whose opinion on such subjects is generally law; we, however, must in this instance dissent from the opinion advanced in the above. Women possess the same capability of mind as men, and we doubt whether one in a hundred would make the choice indicated above; they know as well as we that beauty without knowledge is as naught. Who could think of being captivated by a woman who possessed beauty alone; she would not be an ornament to him; her rough, hoidenish manners would destroy her charms and make her, a disgrace instead of an honor to his household. True beauty lies in the excellence of a woman's mind, and social culture, and not in symetry of form, and the beauty of complexion. Women have learned this truth long since; and a man must be a fool to advance such an idiom.

MUSIC.—Do you like music? If you do just call around at our office most any time, and you can be accomodated. In the day time our sanctum is enlivened by the sweet sounds of the songs of birds, and the flute-like music of charming female voices; these sweet sounds, through the day, are ever heard stealing through the pure spring air. At night we are edefied by the enlivening music of a band of male and female cats—so we should judge from the voices—playing their loudest tunes under our window. With this fine and varid assortment of musical performers, who would not be pleased? Often in the daytime as we sit by our table we mentally exclaim "would that night, or the cats would come."

THE following named gentlemen were elected as delegates to the Chicago National Convention, by the Union State Convention which met in Sacramento on the 31st, ult: General P. E. Connor, Colonel James Coey, J. J. Green, Maj. Stratman, W. H. Sears, M. Lvoett, C. B. Higby, J. M. Days, Thomas Spencer and J. S. Rogers. General Grant received a unanimous indorsment for President.

WE have received the first number of the *Oakland Evening Transcript*, published by H. Coffin; it has the appearance of a live newspaper—something the citizens of Oakland were sadly in need of. With a proper regard to the local news of that vicinity the *Transcript* cannot fail.

THUNDER SHOWERS.—This locality was visited during the present week by several delightful thunder showers.

THE snow at Cisco is only seven feet deep on the level. It is said to be melting rapidly.

[COMMUNICATED.]

LOVE:—This familar word has been commented on from time immemmorial, by sages and bards, love sick mortals and fools, sentimental old maids and decrepit bachelors, but the twanging of the same chord is heard and expressed in the written considerations of the entire galaxy of deliberators; but with all that has been said; all the advice that has been given, mankind has learned but little, if any, more than was known to our good father Adam, who lived in a beautiful garden, when the world was in its infancy; it still takes that strait zig-zag path, it always pursued, going around the hill instead of over the top. God, when he placed mankind upon the earth, designed that they should love one another; he also, undoubtedly, designed that the "course of true love" should not "run smooth," in order that smitten parties might be tested ere an union is formed. Very often attempts are made to change the current of love events; but almost invariably the venturer gets his canoe swamped in the turbulent stream of paternal and maternal opposition. Females are more susceptible of loving truly, than males. Men are more given to passion than real love, and very often they let their desires get the better of their judgement, and unfortunate unions are the results. Mankind cannot be too careful of their actions; to trifle with the affections of another is a grave sin—the results are often distressing in the extreme.

Who is there in this broad world that has not, at some time of life, had an affection for some person or thing; the merest babe has a love for its mother's milk; the child for candy and sweetmeats; the youth for fine cloths; the young men and women for one another; the bachelor for solitude and quietness; the old maid for cats and poodles; the aged for ease and comfort; and all classes with the exception of the first a love for money. Some may deny the fact that they love money, but in doing so they express a falsehood. The love of liquor, tobacco and opium deserve to be classed among the affections of the people. C.

SCHOOL EXHIBITION.—The Public Schools of this place will give an exhibition at the Theatre on next Saturday evening. The performance will consist in part of dialogues, recitations, and tableaux. The scholars are being carefully trained by the efficent and worthy teachers, Misses Munsell and Mallon, and we are certain that an excellent and pleasing entertainment will be given.

STARVING.—Reports reach us from all parts of the world, of untold numbers of people who are starving, not a few thousand in want, but in the aggregate millions are wanting for the necessaries of life.

HOLY WEEK.—The last week in Lent, called Holy or Passion Week, commences next Monday. The 10th inst., is Good Friday, and the Sunday following is Easter Sunday.

THE Dutch Flat shaft is now down about two hundred and fifty feet below the surface, and has not reached the bed rock yet.

DANCE.—A social dance will take place at Pioneer Hall on next Thursday evening, to which the public are cordially invited.

DANCING SCHOOL.—An effort was made during the week to start a dancing school in this place, but it was a failure.

PACIFIC

BUSINESS COLLEGE,

MECHANIC'S INSTITUTE,
POST STREET, Between Montgomery & Kerney
SAN FRANCISCO,

The importance of a thorough and practical business training for those who contemplate entering the mercantile profession, is too well known to require much comment. Without such knowledge, the young merchant will become involved in many embarrassments which might otherwise be avoided. The youthful aspirant will find himself surrounded by inextricable difficulties, both in seeking a situation, and in the discharge of its duties after employment is obtained. To have received instruction at a mercantile college, endorsed by the leading merchants of the city, is more effective in winning the favor and confidence of a business firm, than all the letters of introduction which friends can give. The

Pacific Business College

maintains a reputation for thoroughness and systematic training, far surpassing that of any other similar institution on the Pacific coast. Most of the leading merchants of this city have employed graduates from this College, and bear testimony to the practical efficiency of the cour e here prescribed. The system of actual practice embraces all the varied operations of real business. A Ladies' Department has lately been added to this popular institute. This spirit of enterprise cannot fail to draw forth the well-wishes of the public.

Address for all information,
VINSONHALER & DE LAGUNA,

A CARD

We the undersigned, merchants and business men of San Francisco, California, are at the present time, employing men who have completed the prescribed course of study at the Pacific Business College, and we take pleasure in stating that we have found them well posted in accountantship and the general principles of business, showing conclusively that they have been subjected to a thorough drill in those important matters, by experienced and competant instructors,

We cheerfully recommend the College as being in our opinion, an institution of intrinsic merit, and well worthy of the confidence and support or the community.

SOME years since, while residing in the city of Providence, we heard much said in Praise of Perry Davis' Pain Killer. We listened incredulously to these testimonials. Well, health failing, as a last resort, the doctors sent us to Minnesota. The winter was intensely cold, and a terrible form of Neuralgia prevailed among the settlers, and we fell into the grasp of the disease, and day and night, for weeks, endured untold agony. Many remedies were tried without avail. One day, however, a stalwart frontiersman entered the room, bearing in his hand a vial partly filled with a reddish liquid. It was some of the Pain Killer. He had bought in California three years before, and had kept it with miserly care until then. Applying it externally and internally gave immediate relief. Since then, we have recommended it successfully in cases that baffled the best medical skill; and, when we see persons reject this remedy, we recall our own experience, and think that the time may come when pain incurable by other agents, may teach them the value of this great discovery.—*Home Monthly.* c21 1m

MURDERED BY THE INDIANS.—The Idaho *Statesman* of March 21st, says:

After a short season of inactivity the curtain has again raised upon scenes of blood at the hand of the Indians. On Thursday morning last on the divide near Reynolds creek the Owhee stage met a horseman somewhat excited who asked the driver and passengers what had happened and if anybody was hurt. They in turn put the same question to him, when he said that back in the canyon he passed the still smoking remains of a wagon that had been burned in the road, and supposed the Indians had been at work again. The passengers got out and accomanied by the man came on a short distance in advance of the stage to the place designated, and found where a load of potatoes, egs, etc., had been destroyed, and now partly covered with the ashes of the wagon. Spots of blood and indications of a struggle were observed, and further search discovered the body of a man lying face down in a little gulch not far from the roadside. It was not mutilated, but had been stripped of all clothing except shirt and one sock. Several wounds were noticed, one through the thighs, one in the abdomen and one apparently in the breast—gunshot wounds. The party endeavored to discover in which direction the horses had been driven, but all traces of their departure had been destroyed, and the supposed number of Indians engaged could not be arrived at. Appearances indicated that the wagon, when fired, was standing directly across the road. The body of the unfortunate man was rolled in blankets and brought on the stage to the Snake river ferry, when it was found to be that of Mr. Jarvis, brother-in-law of Mr. Morgan at the ferry, and whose home is about twenty miles down the valley from Boise City. He had started over to Owyhee with a load of produce unaccompanied and perhaps unarmed, and met his death in the canyon and at the same spot already made terrible by deeds of blood: indeed his body was found but a few feet from the grave of the Frenchman murdered last spring. Canyon of Blood would be an appropriate designation for the place noted for the frequency of Indian murders committed within its lonely confines. It was supposed that Jarvis was killed in the afternoon of Wednesday.—He leaves a wife and several children.

It will be noticed that the stage and the mail boy went through the canyon but a few minutes before Mr. Jarvis must have been attacked. That shows that the Indians are shy of the Spencer's and Henry's rifles which the stages are always provided with. A dozen lonely travelers may be cut off and the stage not attacked once during the time.

A Chinaman was probably killed also. He was seen by the stage passengers on the previous trip going through the canyon a foot and nothing has been heard of him since.

TAX ON MINES.—Under the recent decision of the Supreme Court, says the Sacramento *Bee* mines hereafter will be taxed. In calculating the basis of taxation for the present year, the Ways and Means Committee estimated the value of the mines to be taxed a $9,851,000, thus—Alapine, $175,000; Amador, $1,000,000; Butte, $500,000; Calaveras, $500,000; Del Norte, $150,000; El Dorado, $240,000; Fresno, $50,000; Inyo, $100,000; Klamath, $150,000; Kern, $500,000; Mono, $50,000; Mariposa, $300,000; Nevada, $2,000,000; Placer, $1,500,000; Plumas, $250,000, Sierra, $1,000,000; Siskiyou, $150,000; Trinity, $100,000; Yuba, $500,000. This list as will be seen, is very incomplete, and it is very probable that the Assessors' returns will double the sum mentioned.

Notwithstanding the 60,000 and odd Chinese of California, it is seldom or never that one of them is seen drunk. —*Ex.*

The writer of the above must certainly have been ignorant of the subject in hand when he penned the above, or else he, for effect, maliciously mistates the the facts; for it is well known that the Chinese are addicted to the "flowing bowl" and that they have as great an appetite for intoxicating drinks as any other race of people. We venture to say that no day in the week can Chinatown be found entirely free from inebirated celestials.

A RUMOR is gaining ground that the ladies are going to exercise the leap-year prerogative of offering their seats to gentlemen in the cars, for the purpose of putting the latter to shame and setting them a good example for the next three years.—*Ex.*

It is also reported that the aged, and infirm gentlemen have formed themselves into conmpact to steadily refuse to accept seats from the ladies, with a view to the same end.

A dispatch to the *Union* says the Rhode Island State election has resulted in a large increase of the Republican vote over that of last year in both houses of the Legislature. The Republicans have overwhelming majorities: In the Senate—Republicans 28, Democrats 5. House—Republicans 64, Democrats 7.

FROM the 1st day of April, half ounce letters, prepaid in Canada or the United States, are charged six cents. Unless prepaid the old postage of ten cents will be due.

THE amount of entries paid in at the San Francisco Custom House, from the 1st of January to the 30th of March was $1,974,070,69.

HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YOUNG, in 1850. In this age of deceit and charlatanism it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sickand troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. Consultation Office, 540, Washington street, San Francisco.

MEDICAL ADVICE.—DR. WM. K. DOHERTY'S Medical and Surgical Institute is becoming a sine qua non to the welfare of our State and health of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natu result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defamation of others to establish his reputation or ruin of another's fame. The Doctor conducts his own Institute in such a manner must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt consolation which appertain to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he in sist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—News

PILLS.

DR. RADWAY'S PILLS.—Dose—For Regulating the Liver, Stomach, Bowels, and Kidneys, *One* Pill at *Night*. For Obstinate Diseases and Chronic complaints 4 to 6—every 24 hours. As a Dinner Pill, one Pill one hour before dining will ensure a good appetite, and healthy digestion.,

DR. RADWAY'S PILLS ARE COMPOUNDED FROM VEGETABLE EXTRACTS, Coated with Sweet Gum, and are the best, quickest, and safest Purgative, Aparient, Anti-Billious and Cathartic Medicine known to Medical Science.

One of Dr. Radway's Pills contains more of the active principle of cure, and will act quicker on the Liver, Bowels, Stomach, Kidneys, Bladder, Blood, &c., than four or six of the ordinary common Purgative Cathartic Pills sold under various names, or than ten grains of Blue Mass.

TRUE COMFORT FOR THE AGED AND OTHERS AFFLICTED WITH COSTIVENESS AND PARALYSIS OF THE BOWELS.

ONE TO THREE OF RADWAY'S PILLS once in 24 hours will secure regular evacuations from the bowels. Persons who for 20 years have not enjoyed a natural stool, and have been compelled to use injections, have been cured by a few doses of Radway's Pills.

READ THIS.
New Albany, Ind., March 12, 1867,

For forty years I have been afflicted with costiveness and for the last twenty was compelled daily to resort to injections to secure an evacuation. In December last I commenced the use of Radway's Pills. After taking a few doses my liver, stomach, and bowels were restored to their natural strength and duties. I have now a regular movement once a day, and, although 80 years of age, feel as hearty and strong as I did 40 years ago.

Dr. Radway, N. Y. THOS. REDPATH, J. P.

MEDICAL DISEASES.

Persons engaged in Paints, Minerals, Plumbers, Type Setters, Goldbeaters, Miners, as they advance in life, will be subject to paralysis of the bowels; to guard against this take a dose of Radway's Pills once or twice a week as a Preventative.

DR. RADWAY'S PILLS CURE ALL DISEASES,

Of the Stomach, Liver Bowels, Kidneys, Bladder, Nervous Diseases, Headache, Constipation, Costivenese, Indigestion, Dyspepsia, Billiousness, Billous Fever, Inflamation of the Bowels, Piles, and all derangements of the Internal Viscera.—One to six boxes warranted to effect a positive cure. Purely vegetable, containing no mercury, minerals or deleterious Drugs.

Dr. Radway's Pills sold by all Druggists and Country Merchants.

Price, 25 Cents.

HIGH ENDORSEMENT FROM THE MEDICAL COLLEGE OF PRUSSIA.

DR. RADWAY

Is in receipt of an important official document, signed by the Professors of the Medical College of Breslau, Prussia, embodying the result of an analysis of RADWAY'S REGULATING PILLS.

"The Faculty of the College state in their report that after a careful and minute examination, they have the honor to state that the pills are not only free from every substance injurious to health, but are composed wholly of substances and elements promotive of digestion, and certain at the same time to act favorably upon the nervous system, &c., &c., They state, further, that the injuious rumors set afloat by the Prussian apothecaries originated "in a spirit of trade jealousy excited by the great celebrity attained by the Pills within a very brief period."

Signed on behalf of the College,
DR. PHIL. THEOBALD WERNER,
Director of the Polytechnic Bureau
DR. HESSE, *First Assistant.*

INDIGESTION!

In cases where natural evacuations are difficult to secure, and a quick discharge is essential, take six of Radway's Pills and pulverize them,—take the pill powder in water or preserves,—in half an hour they will operate. We have known the most distressing pains of Gastritis, Billious Cholic, Inflamations, Congestion, &c., stopped, and the retained irritating humors expelled from the bowels in thirty minutes by this treatment. It is however, better in chronic cases is to take the pills as they are, and let them gradually dissolve in the stomach. These Pills possess in the highest degree cathartic, aperient, tonic, and diaphretic properties. They do not weaken or debilitate the system or any of its organs, and will leave the bowels regular and healthy. They purify and equalize the circulation of the blood. No congestion or inflamation will occur while the system is under their influence. Price 25 cents per box, or 5 boxes for one dollar.

REDINGTON & O.'S
ESSENCE OF JAMAICA GINGER.

THIS valuable preparation, containing in a highly concentrated form all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs

As a tonic it will be found invaluable to all persons recovering from debility, whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by the riding in a railroad car, or by sea-sickness, or other causes. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

It is not surprising that you should be reluctant to try something else after the many experiments you have made on trashy compounds foisted on the public as a certain cure; but

NEWELL'S
PULMONARY SYRUP

is really the VERY BEST remedy ever compounded for the cure of Coughs, Colds, Sore Throat, Asthma, Whooping Cough, Bronchitis and Consumption. Thousands of people in California and Oregon have been already benefited by the surprising curative powers of

NEWELL'S
PULMONARY SYRUP

and with one accord give it their unqualified approbation. We now address ourselves to all who are unacquainted with this, the greatest Panacea of the age, for the healing of all diseases of the Throat and Lungs, assuring you that

NEWELL'S
PULMONARY SYRUP

has cured thousands and it will cu YOU if you try it. This invaluable medicine is pleasant to the taste; soothing, healing and strengthening in its effects; entirely free from all deleterious drugs, and perfectly harmless under all circumstances.

GRAEFENBERG
UTERINE CATHOLICON

If faithfully used according to directions will cure every case of Diabetes, and greatly mitigate the troublesome effects cause by a relaxation of the outlet of the bladder. It is a most successful remedy for the Gravel and other diseases of the Kidneys and Bladder, and for female diseases is unequalled. The *Catholicon* uniformly cures Prolapsus Uteri, Whites, all Irregularities of the Monthly Turns, Suppressions, Incontinence of Urine, Bloating, Dropsical Swellings, and all diseases of pregnancy.—The specific action of this medicine is immediate and certain upon the Uterine and Abdominal Muscles and Ligaments; restoring them to as healthy a state as those of childhood and youth, so that patients who have used the *Graefenberg Company's Uterine Catholicon* cannot sufficiently express their gratitude for the relief afforded.

ALL OVER THE WORLD

People of sense and judgment have learned o use

PLANTATION BITTERS.

Dyspepsia, with its symptoms, Headache, Heartburn, Feverish Lips, Bad Breath, Sallow Complexion, etc., can be cured by using PLANTATION BITTERS.

This is the most successful tonic of the age. Young, middle-aged and old are delighted with its effects.

The first trial always has a marked effect.

No change in diet is necessary. Eat all you wish, of the best and most nutritious food.

It is the greatest cure ever known for an overloaded and distressed stomach, which it relieves in a few moments.

We know that we have the best and most popular medicine in the world. We are not afraid to show what it is composed of.

PHYSICIANS ARE COMPELLED TO RECOMMEND IT

CALISAYA BARK has been celebrated for over two hundred years, and was sold during the reign of Louis XVI, King of France for the enormous price of its weight in silver. It is remarkable for Dyspepsia, Fevers, Weakness, Constipation, etc.

CASCARILLA BARK.—For Diarrhœa, Colic and diseases of the stomach and bowels.

DANDELION.—For Inflammation of the Loins, and Dropsical Affections.

CAMOMILE FLOWERS.—For enfeebled digestion.

LAVENDER FLOWERS.—Aromatic, stimulant and tonic—highly invigorating in nervous debility.

WINTERGREEN.—For Scrofula, Rheumatism etc.

ANISE.—An aromatic carminative; creating flesh, muscle and milk; much used by mothers nursing.

Also clove-budge, orange, charaway, coriander, snake-root, etc.

Another wonderful ingredient, of Spanish origin imparting beauty to the complexion and brilliancy to the mind, is yet unknown to the commerce of the world, and we withhold its name for the present.

With this recipe before the community, and evidence of effects meeting them on all sides, the success of DR. DRAKE stands founded upon the rock of truth. Almost every family has some cases of suffering which the PLANTATION BITTERS will alleviate and cure.

They are recommended by the highest medical authorities, and are warranted to produce an immediate beneficial effect. They are exceedingly agreeable, perfectly pure and harmless.

NOTICE.—Any person pretending to sell Plantation Bitters in bulk or by the gallon, is a swindler and impostor. It is put up only in our log cabin bottle. Beware of bottles refilled with imitation deleterious stuff for which several persons are already in prison. See that every bottle has our United States stamp over the cork unmutilated, and our signature on steel plate side label.

Sold by respectable dealers throughout the habitable globe.

MEXICAN MUSTANG LINIMENT

The merits of this Liniment are well known. Its effects are instantaneous, soothing and wonderful.

Cuts, bruises, sprains and swellings are so common and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made.

It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with.

READ THE FOLLOWING:

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Scratches or Galls on Horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, etc., and all say it acts like magic."

J. W. HEWITT,
Foreman for American, Wells, Fargo's and Harnden's Express.

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced using your celebrated Mustang Liniment.

Quick and sure it certainly is. All genuine is wrapped in steel-plate engravings, bearing the signature of G. W. Westbrook, Chemist, and the private U. S. stamp of DEMAS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone-plate label. *Look closely!*

Sold by all Druggists and Stores, at 25 and 50 cents and $1.

LYON'S FLEA POWDER.

It is well known that Lyon's genuine Magnetic Powder will perfectly destroy everything in the shape of Fleas, Ticks, Bedbugs, Roaches etc.: that it is perfect poison to the insect tribe but entirely harmless to the human species and domestic animals.

Bedbugs, Ants, Roaches, etc., are in every house. This powder is their natural death. It should be in every cupboard.

For these diseases, it is truly a sovereign remedy, and too much cannot be said in its praise. A single dose has been known to relieve the most urgent symptoms.

Are you troubled with that distressing pain in the small of the back and through the hips? A teaspoonful a day of Helmbold's Buchu will relieve you.

PHYSICIANS AND OTHERS

PLEASE NOTICE.

I make no secret of ingredients. Helmbold's Extract of Buchu, is composed of Buchu, Cubebs, and Juniper Berries, selected with great care, prepared in vacuo and according to rules of

Pharmacy and Chemistry.

These ingredients are known as the most valuable Diuretics afforded.

A DIURETIC

is that which acts upon the kidneys.

HELMBOLD'S EXTRACT BUCHU

ACTS GENTLY

Is pleasant in taste and odor, free from all injurious properties, and immediate in its action.

FOR THE SATISFACTION OF ALL

See Medical Properties contained in the Dispensatory of the United States, of which the following is a correct copy:

"BUCHU. Its odor is strong, diffusive, and somewhat aromatic, its taste bitterish, and analogous to that of mint. It is given chiefly in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, morbid irritation of the Bladder and Urethr, diseases of the Prostrate, and Retention or the Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. It has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections, and Dropsy."

[DR. KEYSER is a physician of over thirty years' experience, and a graduate of the Jefferson Medical College and of the University of Medicine and Surgery of Philadelphia.]

MR. H. T. HELMBOLD:

DEAR SIR:—In regard to the question asked me as to my opinion about BUCHU, I would say that I have used and sold the article in various forms for the past thirty years. I do not think there is any form or preparation of it I have not used or known to be used, in the various diseases where such inedicate agent would be indicated.

You are aware, as well as myself, that it has been extensively employed in the various diseases of the bladder and kidneys, and the reputation it has acquired, in my judgement, is warranted by the facts.

I have seen and used, as stated before, every form of BUCHU,—the powdered leaves the simple decoction, tincture, fluid extracts; and I am not cognizant of any preparation of that plant at all equal to yours. Eighteen years experience ought, I think, to give me the right to judge of its merits, and without prejudice or partiality, I give yours precedence over all others.

I value your Buchu for its effects on patients. I have cured with it, and seen cured with it, more diseases of the bladder and kidneys than I have ever seen cured with any other proprietary compound of whatever name, or any other Buchu.

Respectfully yours, &c.,

Established expressly to afford the afflicted sound and scientific medical aid in the treatment and cure of all Private and Chronic Diseases, cases of Secrecy and all Disorders.

TO THE AFFLICTED.

DR. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases, viz: Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhœa, Gleet, Strictures, Nocturnal and Diurnal emissions, Sexual Debility, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc., and he hopes that his long experience and successful practicewill continue to ensure him a share of public patronage. By the practice of many years Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way, and has references of unquestionable veracity from men of known respectabilityand high standing in society. All parties consulting him by letter or otherwise, will receive the best and gentlest treatment, and implicit secrecy.

To Females.

When a female is in trouble, or afflicted with disease as weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular power, s, palpitation of the heart, irritability, nervousnes extreme urinary difficulties, derangement of digestive functions, general debility, vaginitis, all diseases of the womb, hysteria, sterility and all other diseases peculiar to females, she should go or write at once to the celebrated female doctor, W. K. Doherty, at his Medical Institute, and consult him about her troubles and disease. The Doctor is effecting more cures than any other physician in the State of California. Let no false delicacy prevent you, but apply immediately and save yourself from painful sufferings and premature death. All Married Ladies whose delicate health or other circumstances prevent an increase in their families should write or call at Dr. W. K. Doherty's Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arranged that he can be consulted without fear of observation.

To Correspondents.

Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. Doherty on their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that their communications will be held most sacred, Dr. Doherty takes this opportunity of observing, that all letters are opened only and replied to by himself, and the latter as promptly as possible.

If the case be fully and candidly described, personal communication will be unnecessary, as instructions for diet, regimen, and the general treatment of the case (including the remedies), will be forwarded without delay, and in such a manner as to convey no idea of the purport of the letter or parcel so transmitted. A CARD FROM THE

AMERICAN WATCH COMPANY

Of Waltham, Mass.

This Company beg leave to inform the public that they commenced operations in 1850, and their factory now covers four acres of ground, and has cost more than a million dollars, and employs over 700 operatives. They produce 75,000 Watches a year, and make and sell not less than one-half of all the watches sold in the United States.

The difference between their manufacture and the European, is briefly this: European are made almost entirely by hand, and the result is of necessity a lack of that uniformity, which is indispensable to correct time-keeping. Both the eye and the hand of the most skillful operative must vary. But it is a fact that, except watches of the higher grades, are the product of the cheapest labor of Switzerland and the result is the worthless Ancres, Lepines and so-called Patent Levers—which soon cost more in attemptep repairs, than their original cost. Common workmen, boys and women, buy the rough separate parts of these watches from various factories, polish and put them together, and take to the nearest watch merchant, who stamps and engraves them with any name or brand that may be ordered.

How American Watches are made.

The American Waltham Watch is made by no such uncertain process—and by no such incompetent workmen. All the Company's operations, from the reception of the raw materials to the completion of the watch, are carried on under one roof, and under one skillful and competent direction. But thegreat distinguishing feature of their watches, is the fact that their several parts are all made by the finest, the most perfect and delicate machinery ever brought to the aid of human industry. Every one of the more than a hundred parts of every watch is made by a machine—that infallibly reproduces every succeeding part with the most unvarying accuracy. It was only necessary to make one perfect watch of any particular style and then to adjust the hundred machines necessary to reproduce every part of that watch, and it follows that succeeding watches must be like it.

The Company respectfully submit their watches *on their merits* only. They claim to make

A Better Article for the Money

by their improved mechanical processes than can be made under the old fashioned handicraft system. They manufacture watches of every grade, from a good, low-priced and substantial article, in solid silver hunting cases, to the finest chronometer; and also ladies' watches in plain gold or the finest enam eled and jeweled cases; but the indispensable requisite of all their watches is that they shall be GOOD TIME-KEEPERS. It should be remembered that, except their single lowest grade named the "Home Watch Company, Boston," ALL watches made by them

ARE FULLY WARRANTED

by a special certificate, and this warrantee is good at all times against the Company or its agents.

THE SCIENCE OF HEALTH.

Every Man His Own Physician.

HOLLOWAY'S PILLS,

AND

HOLLOWAY'S OINTMENT!

Disorders of the Stomach, Liver and Bowels.

The Stomach is the great centre which influences the health or disease of the system—Abused or debilitated by excess—indigestion, offensive breath and physical prostration are the natural consequences. Allied to the brain, it is the source of headaches, flental depression, nervous complaints and unrefreshing sleep. The Liver becomes affected and generates billious disorders, pains in the side, &c. The Bowels sympathize by Costiveness, Diarrhœa and Dysentery. The principal action of these Pills is on the stomach, and the liver, lungs, bowels and kidneys participate in their recuperative and regenerative operation.

Erysipelas and Salt Rheum,

Are two of the most common and virulent disorders prevalent on this continent, to these the Ointment is especially antagonistic, its "modus operandi" is first to eradicate the venom and then complete the cure.

Bad Legs, Old Sores, and Ulcers.

Cases of many years' standing, that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

Eruptions on the Skin.

Arising from a bad state of the blood of chronic diseases, are eradicated, and a clear and transparent surface regained by the restorative action of this Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

Female Complaints.

Whether in the young or old, married or single, at the dawn of womanhood, or the turn of life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation, they are a safe and reliable remedy for all classes of Females in every condition of health and station of life.

Piles and Fistula.

Every form and feature of these prevalent and stubborn disorders is eradicated locally and entirely by the use of this emolient; warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases:

Bunions,	Piles,	Sore Legs,
Burns,	Rheumatism,	Sore Breasts,
Chilblains,	Ringworm,	Sore Heads,
Fistula,	Salt Rheum,	Sore Throats,
Gout	Scalds,	Sprains,
Stiff Joints,	Tetter.	Ulcers.
Lumbago,	Skin Diseases	Venereal Sores,
Sores of all kinds,	Mercurial Eruptions,	
Swelled Glands,	Wounds of all kinds.	

CAUTION.—None are genuine unless the words "HOLLOWAY, NEW YORK AND LONDON," are discernible as a *Water Mark* in every leaf of the book of directions around each pot or box; the same may be plainly seen by *holding the leaf to the light*. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

Consultation by letter, or otherwise, FREE. For direction of letters, see below.

THIS CELEBRATED INSTITUTE

has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world, and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES and IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venerial Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles its dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be satisfied with partial cures

that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine, WHEN PERFECT CURES can be obtained by consulting a physician whom long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all cases entrusted to the Doctor's care, PERFECT, SPEEDY and PERMANENT

Cures are Always Guaranteed.

In syphilis and its adjuncts; Gonnorrhœa and its accompanying diseases; and all diseases of the Bladder, Kidneys, and prostate; Seminal Weakness; Diseases of the Heart and Lungs; Dyspepsia; Indigestion, Impotency; Incipient consumption, and all diseases of the urinary organs, in either sex, cure always warranted, or NO PAY REQUIRED, at the

Seminal Weakness or Spermatorrhœa.

The young man who experiences that growing weakness in his muscular and mental organization, should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing deafness, loss of muscular power, and numerous other symptoms of disorganization, the positive traces of that most terrible and destructive of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that the one who looks to him for so much of her happiness, is a victim to this evil, and an innocent companion of his punishment. He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands of sick-rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and beg the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to minister in all cases, both medically and surgically, not in a superficial manner, but in a thorough manner as years of study and practice both in hospitals and private families—can make to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation by letter or otherwise, FREE. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimonials of their efficacy declare them to be pre-eminently superior in their action. No lady should be without these Renovating Agents.

DR. PERRAULT's studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long after-ward; patients, laboring under this complaint, will complain of one or more of the following symptons: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Uretha on going to stool or making water, the Intellectual Faculties are Weakened, Loss of Memory ensues, Ideas are clouded and there is a disinclination to attend to business, or even to reading, writign or the society of friends, etc, The patient will probably complain of Dizziness, Vertigo and that Sight and Hearing are Weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, bness of the body, Some of the most common symptons are pimples in the face and aching in different parts of the body. Patients suffering from this disease, should apply immediately to Dr. PERRAULT, either in person or by letter as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage Gonorrhœa, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PERRAULT's diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfil our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures. Ladies suffering from any complaint incidental to their sex, can consult the doctor, with the assurance of relief.

Female Monthly Pills.

DR. PERRAULT is the only agent in California for DR. BIOT's Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.

Persons at a distance can be cured at home, by addressing a letter to Dr. PERRAULT, corner of Sacramento and Montgomery streets, Rooms 10 and 11, or Box 973, P. O., San Francisco, stating the case as minutely as possible general habits of living, occupation, etc., etc.

THE HOWE
SEWING MACHINES,
Manufactured by the
HOWE MACHINE COMPANY
Elias Howe, jr., Proprietor,
No. 609 Broadway, N. Y.

For Families and Manufacturers.

They are celebrated for doing the best work using a much smaller needle for the same thread than any other machine.

The New Improved Family Machine is without a rival, and cannot be surpassed—a Hemer, Feller, Braider, Quilter, and Guide, go with each Family Machine free of charge.

Every machine is as near perfection as the best machinery in the world can make it.

They are adapted to all kinds of Family sewing and Manufacturing of every description, making a beautiful and perfect stitch, alike on both sides of the articles sewed, and will neither rip nor ravel.

The parts being exactly alike, if any part needs to be replaced, the operator can replace it.

Loss of time and expense of sending to a machine shop rarely occurs.

The Best Machine in the World.
